

HIGHLIGHTS

FRED VIGEANT
Vice President &
Chief Audience Officer

The new **MASTERPIECE** documentary-drama series, **Mr Bates vs The Post Office**, premieres on WITF TV April 7 at 9pm. **MASTERPIECE** intended for another new series to be part of the line-up this spring, but chose to expedite bringing the docu-drama to American audiences based on its immense popularity in the United Kingdom.

Hundreds of innocent subpostmasters were accused of theft and fraud caused by errors in the Post Office's computer system – something it denied for more than a decade. **Mr Bates vs The Post Office** tells the true story of one of the greatest miscarriages of justice in British legal history.

While we're on the topic of **MASTERPIECE**, I'm happy (and perhaps relieved) to share the news that **All Creatures Great and Small** has been renewed for another two seasons. We can expect season 5 this coming January with season 6 launching in 2026.

I'm planning a marathon of the most recent season this June if you want to binge-watch season 4 in one day. Of course, you are welcome to stream the series on-demand at your leisure with WITF Passport on the PBS app.

The finale episode of **Finding Your Roots with Henry Louis Gates, Jr.** is going to be a special one! For the first time in ten seasons, the show will feature three "Viewers Like You" – and one of them is our neighbor! From over 9,000 applications, Megan Robertson of Cumberland County was selected to receive her own book of life. See what she learns about her family tree April 9 at 8pm.

Timed to air the week of Earth Day, we go back to the 1970s for **Poisoned Ground: The Tragedy at Love Canal** from **American Experience**. The documentary delves into the

story of the Love Canal disaster, one of the largest and most notorious environmental and public health disasters in U.S. history. The battle for justice, led mostly by women, created the basis for the landmark federal Superfund program. Watch this new episode of **American Experience** on April 22 at 9pm.

Also, on April 24 at 7pm, we'll feature **The Chesapeake Bay Summit**, produced by our counterparts at Maryland Public Television. In this hour-long conversation, former CNN

correspondent Frank Sesno discusses the efforts to improve the watershed that can lead to a cleaner bay. The hour-long special features experts, policymakers, and stakeholders who are making it possible.

Warmer months are ahead! Stay tuned for more great programming on WITF TV and thank you for your on-going support.
